Bankruptcy Voice Case Information System

The Court deployed a Bankruptcy Voice Case Information System in February, 2015. The system allows creditors, debtors, members of the bar, and the public to easily obtain basic information about any bankruptcy case filed in the District Court of Guam by accessing a toll-free number.

To use the system:

1. Dial 1-866-222-8029.
2. At the prompt, press "#56" or say "Guam".
3. You will then be given the option of getting information on a bankruptcy case by specifying a case number, by saying the two-digit year, and five-digit case number, or using the telephone keypad. Alternatively, case information may be obtained by specifying the full name of a debtor using the telephone keypad.

Basic information about any case filed since 1994 is available, including: Debtor name(s), last four digits of a debtor's social security number, case chapter, nature of debt, asset information, assigned judge, filing date, date and location of the 341 meeting of creditors, discharge date, trustee, debtor attorney (including telephone number), and case status.

Adoption of Electronic CJA Voucher Processing

The Court implemented the CJA eVoucher Program in December 2014. The CJA eVoucher Program allows court-appointed CJA attorneys and expert service providers the opportunity to create, update and submit their CJA vouchers electronically at any time during the representation process. This billing tool provides attorneys and

service providers the ability to log their hours on a daily basis and to simply submit their voucher once the case is closed, or the services are provided. The program eliminates the calculation errors associated with manual billing and internal audit processes, and reduces audit review times for court staff. The CJA eVoucher Program is available to customers and internal staff 24 hours a day, seven days a week and overall feedback of the program is favorable.
